Hybrid

In person

### Salary

850.000 CLP / 900 USD

## Personal

### Location

Chile, O'Higgins

### Birthdate

10 / 10 / 1999

## Profile

Dedicated web developer specialized in React with Vite and NextJS for both front-end and full-stack projects.

I have extensive experience and knowledge in essential web development technologies, version control, database design and administration, API development, UX/UI design, accessibility, testing React apps, SEO, web security, authentication and authorization, and the NPM ecosystem.

## Highlighted Project

### E-Commerce - Full Stack

This platform provides an exceptional user experience, intuitive navigation, effortless sign-in, and essential e-commerce features.

## Certifications

 [Front-End Developer \(9 Courses\)](#)

 [Back-End Developer \(9 Courses\)](#)

 [Applied Software Engineering Fundamentals \(5 Courses\)](#)
